Farrukh Iqbal Khan

Email: farrukh89@gmail.com
Address: 425 P Block Johar Town, Lahore, Pakistan.
Cell Phone: +92-321-5673801
Skype ID: farrukh892
DOB: 15 Jan 1989
PEC No.: ELECTRO/13807
LinkedIn: linkedin.com/in/**farrukhiqbalkhan**

Education

MS Computer Engineering	NUST, EME College, Rawalpindi	2011-2014
BE Electronics Engineering	NUST, SEECS, Islamabad	2006-2010
HSSC (Pre-Engineering)	Superior College, Lahore	2004-2006
SSC	Divisional Public School, Lahore	2004

Technical Skills

Languages:
- C++
- HTML5
- CSS3
- JavaScript

Libraries:
- OpenCV
- jQuery

Software Tools:
- Git (version control software)
- Microsoft Visio 2013
- Microsoft Visual Studio 2012
- Microsoft SQL Server 2012
- Matlab

Operating systems:
- Linux (Ubuntu)
- Windows(XP, 7, 8)

Academic Projects

- **MS Thesis**

"Saliency-aware Image fusion of Visual and IR images"

Abstract: Image fusion is a method in computer vision which combines complementary details from multiple images such that the resulting image has a better representation. In the thesis, a new region selection method for the fusion of registered Infrared and Visual images is proposed. A visual saliency map will be created to preserve the details for a better human visual perception. Currently, I am reviewing the literature and conducting related experiments.

- **Post-Graduate Projects**

  - **"Image up scaling using Iterative Curvature Based Interpolation**", drafted a research paper for *Digital Image Processing* course.
  - **"Super Resolution using Linear Regression"** drafted a research paper using Generalized Linear Model for *Computer Vision* course.
  - **"Design & implementation of a pipelined Math processor using Verilog HDL"**, implemented and verified the design on Spartan-3 FPGA for *Computer Architecture* course.
  - "**A comparison of K-Nearest Neighbor Algorithm & Naïve Bayes Classifier"**, research project carried out for *Pattern Recognition* course.
  - **"Speech synthesis using Linear Prediction coding (LPC)"**, implemented the design using Prony's algorithm on Matlab.

- **Undergraduate Projects**

  - Final Year Project: **"Implementation of an IP based communication system for providing value added services using Asterisk PBX"**. The provided services included interactive voice response (IVR), call conferencing, voicemail, presence call routing.

  - Semester Projects:

    - Police Vehicle Command and Control System
    - Library Management System for College
    - Design of nMOS Field Effect Transistor using Cadence Tools

Research Interests

I have interest in following research topics.

- Multimodal image registration
- Local image feature detection and description
- Super resolution, image segmentation
- Multi resolution analysis
- Harmonic analysis (Fourier & wavelet domain processing)
